James Trimble  
Director, Actuarial Science Program  
University of Connecticut  
341 Mansfield Road, U-1009  
Storrs, CT 06269

Dear Professor Trimble,

The CAS is pleased to inform you that the University of Connecticut has been selected for a second time as a recipient of the CAS University Award. Your program is receiving this recognition for the exemplary and innovative ways in which it prepares students for a career in the property and casualty insurance industry. The opportunities for students to gain exposure to the industry through your curriculum, research, and industry engagement are impressive and we applaud you!

We enthusiastically look forward to sharing the news of your achievement with both the CAS and broader insurance and academic communities.

The University of Connecticut will receive a \$5,000 monetary award to further enhance your program. Additionally, we invite you to join us at the CAS Annual Meeting being held November 10th-13th, in Honolulu, HI. The CAS will cover the expenses for one program representative to be honored at the meeting, and we hope that your representative would be willing to share an overview of your program with our attendees during a concurrent session that we are planning for the meeting.

Tamar Gertner, CAS University Engagement Manager will be following up with you to provide additional information about the award.

On behalf of the CAS, please accept our congratulations on receiving the 2019 CAS University Award!

Sincerely,

James K. Christie  
CAS President
